Coverage Map

On Saturday nights when the "It's Your Money and Your Life!" radio program airs KFMB increases their signal to the maximum allowed by the FCC, 50,000 watts, and can reach a large section of the West Coast, from Seattle down to Cabo San Lucas, all of San Diego County and the Palm Springs region.

Located at the advantageous dial position of 760 AM, the KFMB signal reaches the entire San Diego area, as far north as Los Angeles. While most AM and FM stations have "pockets" where their signal does not reach, 760 KFMB AM overcomes the troublesome topography to reach all four corners of San Diego County.

**VERY FEW SAN DIEGO RADIO
STATIONS CAN MAKE THAT CLAIM!**

Why AM 760 KFMB?

News/Talk formats, in general, tend to attract a more educated, affluent audience.

760 is FOREGROUND which means our listeners are actively listening. Our listeners stay tuned through the commercials to hear what our personalities are going to say next which means they hear your advertising message!

Our listeners tune in to find out what is happening locally, nationally and globally.

760 KFMB is a heritage radio station founded in 1940 — we were the 4th radio station in San Diego. The station has been family owned since 1964. We're one of the last family-owned broadcasting companies.

760 KFMB is a CBS news affiliate and is a part of the KFMB Stations group. We are owned in conjunction with San Diego's #1 source for news, CBS News 8, and 100.7 KFM-BFM which allows us to cross-market our programming. Our CBS News 8 team provides live radio news coverage, Mike Slater and Roger Hedgecock are televised in San Diego on Channel 8 regularly.
